

# Oral Session: Papers wo1 – wo3

(Chairperson: Stephen Collocott,CSIRO Lindfield)

*Seán Cadogan, UNSW Canberra*  
Magnetic structures of rare earth intermetallics: a two-pronged attack (INVITED)

*Pauline Rovillain, UNSW Sydney / ANSTO*  
Optical investigation of magnetoelectric coupling via phonons and electromagnons in multiferroics

*Michael Loewenhaupt, IFP Dresden*  
Coupling between electronic and lattice degrees of freedom in 4f-electronic systems investigated by inelastic neutron scattering (INVITED)
