

Oral Session: Papers to5 – to8

(Chairperson:
Richard Mole, ANSTO)

*Shaffique Adam, Yale-NUS
College, Singapore*

Transport properties different
from other two-dimensional
electron gases (INVITED)

Zhimin Ao, UNSW Kensington

Effect of external electric field on the application of graphene

*Anthony Wright,
University of Queensland*

Haldane-like models in
buckled lattices

*David Cortie ANSTO,
Time-resolved magnetic
depth profiles of a thin
film using polarized
neutron reflectometry*
