

# Wagga 2017 Awards

## Student Prizewinners

### Talks

WM3 Mojtaba Amjadipour, Queensland University of Technology  
*Graphene heterostructures: towards a material for 2D electronics*

WA5 Grace Causer, ANSTO  
*Magneto-electronic hydrogen gas sensing*

### Posters (Wednesday)

#### Slam presentation

WP03 Nancy Elewa, UNSW Canberra  
*Mössbauer study of the Coolidge carbonaceous chondrite meteorite*

#### Poster presentation

WP05 Joel O'Brien, UNSW Sydney  
*Investigations of the magnetic and crystal field excitations in orthorhombically-distorted perovskites*

WP14 Samuel Bladwell, UNSW Sydney  
*Interference effects in magnetic focusing with strong spin orbit interactions*

WP21 Emily Yap, UNSW Sydney / CSIRO  
*Investigation of the emission of X-rays in a pyroelectric micro X-ray generator*

### Posters (Thursday)

#### Slam presentation

TP13 Patrick Tung, UNSW Sydney  
*Disordered structures in lead-free piezoelectrics from diffuse X-ray and neutron scattering*

TP05 Daniel Sando, UNSW Sydney, Special award for musical slam presentation  
"Now you're just that thin film that I used to know"

#### Poster presentation

TP09 Richard Winkler, UNSW Sydney  
*Reversible polarization in  $PbZrTiO_3$  bilayers grown on silicon substrates*
